

B.C. First Nations Head Start **Videotape a day in the life of your Head Start**

(© 2004, BCFNHS *Growing Together* newsletter, ISSUE 9, Fall 2004, p.3)

IF YOU HAVE A VIDEO CAMERA, WHY NOT VIDEOTAPE A DAY IN THE LIFE OF YOUR PROGRAM?

It might be too much to do all your taping in a single day, so do a little at a time. Be creative! Have fun!

A video is a nice way to celebrate the beginning or end of the year; invite families to an informal get-together like a lunch, where they can view the video with their children (who will love seeing themselves!) You can also use your video to introduce your program to new families, or show it to your partners or your funders.
